

BVLD Covid Protocol approved December 2021

The following are the BVLD procedures for operations during Covid 19:

BVLD will follow the direction and guidance of Alberta Health Services and the terms of its contracts for leased space.

Members are required to be double vaccinated for Covid 19 to participate in Club classes and events.

Members must sign a waiver stating they are double vaccinated to participate in Club classes and events.

Members are required to show proof of vaccination to participate in Club classes and events. The second vaccination date is recorded on the member's membership record.

Class size decisions are based on the requirements of Alberta Public Health and the rental facilities, as well as the comfort level of instructors and participants.

Members are expected to voluntarily:

- Follow public safety guidelines such as mask wearing and social distancing as stipulated.
- Stay home from class if they feel ill
- Advise the Club at BVlinedance.ca if they test positive for Covid 19

In the event the Club is advised by a member of a Covid exposure or positive test, the Club will advise participants from the impacted class or event by email as soon as the Club is notified. To support transparency to our membership, a general statement may also be added to the website.

The Club will endeavor to maintain member confidentiality.
